Chapter 1 by Wikedywik

Six young royals have been sent to an institution by their parents so they can crop their skills and manners and become the best rulers of the land. The school they will reside at holds before them challenges that they will have to face, wonderful rewards if they succeed, and terrible punishments if they fail.

By the time they have all entered adolescence, the royals that had won the most challenges, and the one who had lost the most challenges will be sent to the forbidden towers on the top floor, the winner to marry their true love and rule from the tower, and the loser to suffer as the winner's maid, living as the royal's slave, feeding their young, and cleaning their toilets.

The others will continue their education, wondering where their peers had disappeared to. Half a decade later, what happened to their fellow students will happen to them. The two remaining royals will face each other off in a challenge, the winner becoming the new teacher, and the loser becoming the new maid. The previous teacher and maid will be sent into the world, not to come back again.
